“The history of the world is but the biography of great men,” argued Thomas Carlyle in 1840. The sentiment is truer now more than ever, except that today’s history is the biography of great men and women.

Reading a great biography (or autobiography) can be as exciting as your favorite mystery or spy thriller, provide more valuable and useful lessons than most self-help best sellers, and offer more professional development wisdom than you can learn in the classroom or at work. Reading biographies is a great way to expand your horizons and to see the world in new ways.

The recently purchased 2017 books on this listing are in the Library collection and may be found using the “Call Number” after each title. The Newton Free Library and the Minuteman Library Network libraries have many other biographies and autobiographies. Ask a librarian, if you need help.
